

Physics Works

Wednesday the 15TH of February AT 8:00

The LookOut Bar and Grill

8672 Pineview Lane N., Maple Grove

Don't miss the first ever Physics Works Pub Show!

Jack and Hank will answer some troublesome questions

*Can a seventy-year-old man be quicker than a young whipper snapper without either having had too much to drink?

*Can a coin jump up off a tabletop into a dish without being touched?

*Can a stick, balanced upon two long stem wine glasses be broken without even spilling the wine?

*Can a Ping-Pong ball pass through two empty beer cans without using any magic or slight of hand?

Jack and Hank perform for 20 to 30 thousand people each year. They have appeared on Newton's Apple and for two years at Disney World's Epcot Center. Hank traveled twice to Europe and appeared on German television as guests of the "Knoff Hoff" show and they perform annually at the Minnesota State Fair.

This will be fun-don't miss it!!
